MEMORANDUM FOR: Associate Deputy Director for Military Affairs
Office of Military Affairs, DO

FROM:

[REDACTED]
Director of Research and Development, DS&T

SUBJECT: Request For Military Liaison Support

1. We have been tasked by Congress to transfer to CIA a sensitive program currently underway at DIA. In accordance with Congressional direction, it also is necessary to conduct a retrospective evaluation of this program. Five years ago the Army Research Institute (ARI) tasked the National Research Council (NRC) to conduct a program evaluation on one of its own programs. This Army program involved "new age" training techniques directed at enhancing human performance. During review of the Army program, NRC considered some of the core issues we are likely to encounter in evaluating the DIA program.

2. We would like to contact ARI in order to determine the success of the NRC program evaluation and to gain better insight as to how to conduct our own review. We would also like to know if ARI further pursued it's training program and what results might have been obtained. In addition, it might be useful to seek participation by appropriate personnel at ARI in the review of the DIA program. The original requester of the 1985 ARI study was Edgar M. Johnson, Technical Director of ARI. George Lawrence served as the ARI liaison to the NRC Committee on Techniques for the Enhancement of Human Performance. We would like to contact these two individuals directly.

what's best way to proceed.

Jap efforts in commercial world to find info

-- focuses down to remote viewing. ☐ people have placed themselves in remote areas.

Remote viewing / "Prediction"

Operations

☐ to his credit said don't rely on his data by itself. use all else in combination. ☐ has struggled to develop consumer base contacted, contacting etc. no customers. have come back for 2nd look joint task force, key west etc. There has been limited extent of utility - no val to high val. There are training missions

SAP → LIMDIS → ? GIGGLE FACTOR.

DIA Underground Structures - DIA.

"Access and Descrite" Target All these agree sometimes they go to a room he gives them guidance

Jude Verona. - product champion.

Our plan is to have people at DIA (BH) let us do our study. develop our transition plan.

Service sciences advisory refused to "peer-review" the program. No single thread to review, there is one DIA program.

40 Documents already declassified

3 op. views

Cognition

(1) Go to Ft. Meade - meet the team.

(2) Ed May SRI → SAIC

(3) ☐ report

(4) ☐ of CSI - rep. - go see ☐

(5) NRC.

(6) Push the declassification issue.

No Sources/Methods No Threat to Nat'l Sec.

[redacted] - hard prog 1 yr. [redacted] @ Ft Meade.

[redacted] - perspective.

FA, OPS, R&D.

SG1J

R&D - with SAIC. Dr. Ed May.
(not SRI... people got absorbed)

Can't say what the R&D has produced.
couple of examples - Ed's a skeptic - not a
full time job for the viewers -

SG1J

[redacted] received informal report from SAIC
(unclassified) - [Ed May input]

CMS - has a copy. on it's way to Congress
it's supposed to be a retrospective DIA only

88,89 → DIA; Army prog before that INSCOM
General Stubblebind.
not called

SG1J

DIA's version is LIMOS. [redacted] crafted.

SG1J

SG1A

[redacted] before

2nd part of report - is review for declassification

40 some documents have been declassified. But Ed May did this
and they were SRI/SAIC anyway. DIA was responding to CDA They
are fighting the 1 March deadline! DIA will say that they have taken steps
even before CDA asked. One informal recommendation was to strike US Spies
no sources or methods - no threat to NSA's security.
[redacted] cannot identify
a single specific instance where prog has made a difference.
